Parent meetings

- Twice a year
- Class teacher responsibility

Student council

- Share ideas for events
- Help to organize events

The education system in Latvia

State general education standards

Standards are mandatory for anyone.

Standards require the key objectives and tasks of general education programs, the minimum content.

Student learning assessment principles and procedures

Mandatory national tests.

Examinations

Students have to pass state diagnostic tests in

grade 3 (Mathematics, Native language),

grade 6 (Mathematics, Native language, Science)

Tests are evaluated by teachers of the relevant subjects

Students have to pass state exams in

grade 9 (Mathematics, Native language, English, History, Latvian).

Exams are evaluated by the examination commission of the educational establishment

Students have to pass minimum 4 state exams in

Grade 12 (Latvian, English, Mathematics and Physics/Chemistry/History/Biology/ Informatics/ Geography).

Exams are evaluated by reviewers (teachers and lecturers of higher educational establishments).

School subject Olympiads

Popular among students in Latvia.

One of the goal of the Olympiads is to stimulate talented students.

There are Olympiads on different school subjects.

- The first stage is school Olympiads,
- The second - district ones,
- The third - state Olympiads.
- The best students of Latvia participate in state or International subject Olympiads.

Assessment of achievements

1st grade knowledge and skills in all subjects are assessed in a descriptive way.

2nd grade Latvian language, minority language and mathematics 10 point scale, other descriptive way.

3rd grade Latvian language, minority language, English and mathematics 10 point scale, other descriptive way.

From 4th grade students' achievements in all subject areas are assessed in 10-point scale (1 - 10).
